

ASX ANNOUNCEMENT

26 July 2022

QUARTERLY ACTIVITY REPORT

EZZ Life Science Holdings Limited (ASX: EZZ), is a genomic life science company with a mission to improve quality of life and human health. EZZ has a focus on genomic research and development to address four key human health challenges: genetic longevity, human papillomavirus (HPV), helicobacter pylori, and weight management. EZZ is passionate about investing in the future of consumer health through the development of e-commerce and distribution of high-quality products via omnichannel models across Australia, New Zealand, China and worldwide. EZZ presents its quarterly activity report and Appendix 4C cash flow statement for the 4Q FY22 ended 30 June 2022.

Highlights:

- Receipts from customers increased moderately by 16% from previous quarter to \$4.6m.
- Operating cash inflow remained positive during the quarter while the outflow on advertising expenses increased four times compared to the previous quarter.
- Cash position remained robust with a balance of over \$10m as at 30 June 2022, including a slight increase of \$90K in the bank.

Activities:

- Four new products were released to the market at the end of the quarter bringing the total number of internally developed EZZ products to 17 as at 30 June 2022.
- The company commenced trading on Douyin (mainland China's version of TikTok) on 8 June 2022 and generated \$85K of revenue in the first 22 days exceeding our expectation.
- One of the core products, Bone Growth Capsules, has proven to be a winning product in China on the e-commerce platform Tmall Global during its major shopping festival – 618 Shopping Festival.

Performance:

Continuing its strong sales trend from last quarter, EZZ closed a strong 4Q FY22 with approximately \$4.6m in cash inflows from customers, representing a 16% increase compared to the previous quarter. The increase in receipts from customers was mainly due to increased sales on Tmall Global during the recent e-commerce shopping event in China (46% increase from last quarter), and a quick growth of new eCommerce distribution channels in international markets.

Several factors impacted the net operating cash flow for the company this quarter. The increase in advertising expenses for Tmall Global during the shopping festival, rebates given to Chemist Warehouse for sales from previous financial years but were only settled recently as well as prepayment for D&O and public liability insurances for the upcoming year have led to the company closing this quarter with an operating cash inflow of \$117,817.

As at 30 June 2022, EZZ's cash balance remained robust and closed over \$10m. Abundant cash flow allows the company to implement its strategic plan in the near future in order to accelerate its growth.

EZZ released four new hair products to the market near the end of the quarter - Hair Scalp Scrub, Anti-Frizz Hair Spray, Hair Growth Spray, and Hair Mask. The products contain local and natural ingredients,

some of which are certified organic. The products have been formulated to strengthen and support hair fibres as well as to help treat issues like dandruff and itchy scalp.

The company commenced trading on Douyin (mainland China's version of TikTok) on 8 June 2022 and generated sales revenue of \$85K within the first 22 days. This rapid growth exceeded our expectation. Owing to over 670 million active users per month in Douyin, this distribution channel is expected to become another important e-commerce platform for the company along with Tmall.

During the recent 618 Shopping Festival, the second largest e-commerce shopping event in China, an EZZ product, the Bone Growth Capsule was ranked the number one product in its category of children's nutritional supplements on Tmall Global for sales, reviews and re-purchase with a total revenue of 1.7M CNY (about AUD364K).

Related party payments in the quarter related to the purchase of inventory from Australian United Pharmaceuticals Pty Ltd and directors' fees.

Cash inflows and outflows are reported on a gross basis, i.e., inclusive of GST.

Under Listing Rule 4.7C, the Use of Funds update from the IPO is as follows:

Use of Funds as per prospectus	Estimated expenditure (\$ 000')	Actual expenditure (\$ 000')	Comment

Notes

1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standard applies to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee – eg Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
